B-PAC and Glenbard District 87 GPS present INSTILLING RESPONSIBLE AND HEALTHY FINANCIAL HABITS IN YOUTH

Thursday, March 19, 2026 | 6:00 PM | Glenside Public Library | 25 E. Fullerton Ave., Glendale Heights

Understanding how money works is an important life lesson for children. Teaching them the value of money and material possessions isn't just about finances. It's a powerful way to develop discipline and long-term thinking. Salvador Mora will be at B-PAC/GPS leading a workshop designed for parents who want to raise responsible, self-disciplined, and grateful children. Through practical strategies and everyday examples, participants will learn how to instill healthy financial habits from a young age.

Participants will discover a model for a balanced relationship with money and material possessions and learn to move away from a consumerist or scarcity mindset. Mora will share a template to help young people make smart decisions, prepare to face economic challenges, and understand that value lies in mindset and creativity, not in material things.
